

ROCK CATHEDRALS

A THREE DAY GUIDED HIKING TOUR TO THE HEART OF PICOS DE EUROPA

(July 25 th, 26 th & 27 th / August 17 th, 18 th & 19 th)

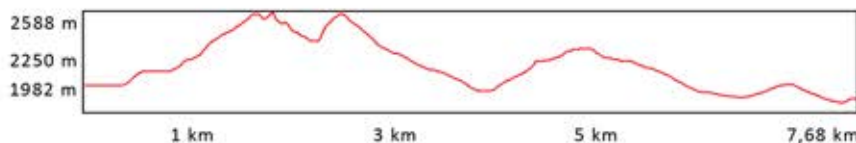

DIA 1

We leave Fuente De through an easy and gentle uphill track which goes around the south face of the central massif of Picos de Europa, until we reach Canal de Pedabejo. From the top of this pass we'll contemplate la Vega de Liordes and its green alpine meadows well surrounded by grey raised limestone towers. From this point and after following an easy path we'll reach Collado Jermoso, well known as the most beautiful mountain shelter of Picos de Europa, built in a really breath taking place, an authentic eagle's nest.

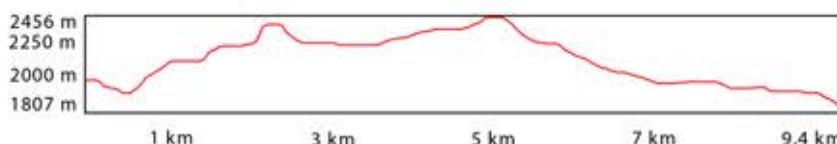

DIA 2

After spending the night at Collado Jermoso, we head for the summit of Torre de la Palanca: we start to undertake the steep slopes that in less than 3 km from the shelter put us on the summit. After descending, we go through a couple of high passes in our way to the most famous shelter in the whole Picos de Europa: Vega de Urriellu, which is located under the 600 m vertical wall of the west face of Picu Urriellu: the dream of every alpinist.

DIA 3

Departing from Urriellu, we reach the most beautiful and narrow pass in the whole Picos: Collada Bonita. After that, we follow the Peña Vieja normal route path to descend through la Canalona to el Cable, where we take the cable car to put an end to this three day trek.

PRICE PER PERSON: 400 €

INCLUDES: GUIDED ROUTE WITH 2 CERTIFIED LOCAL MOUNTAIN GUIDES, OVERNIGHT STAYS, MEALS, CABLE CAR TICKETS, PICOS DE EUROPA MAP, CIVIL LIABILITY AND ACCIDENT INSURANCES.
